HEARINGS SET FOR GRAFT INDICTEES

OREW PEARSON

Washington Merry-Go Round

(Col. R. S. Allen Now on Active Service)
Drew Pearson says:
House members disgusted over Senate absenteeism in OPA conference—California stalls on Tidewater oil lands—Attorney General Kewney gets rebuked by Justice Black.

WASHINGTON—While the entire nation waited for Congress to make up its mind on the vital question of price control, the inside fact was that the House conferees angrily walked out of one meeting in protest against the absenteeism of two Senators.

One was Majority Leader Alben Barkley of Kentucky who failed to show up at all for one afternoon session and left in the middle of the next day's session for a trip out of town.

Barkley's excuse for the first absence was "important business on the floor." However, when House conferees learned that the business was a silver bill and an equal rights measure, they blew up and disgustedly stalked out of the meeting.

The other absentee was lame-duck George Radcliffe of Maryland. House Chairman Brent Spence of Kentucky sharply criticized the "lack of co-operation" of the two Senators, aiming his ire chiefly at Barkley, who had been counted on to spearhead the fight for Senate recess on the controversial Taft-Hartley "guaranteed profits" amendment and the de-control of food products.

"Here we are discussing the economy of the entire nation," caustically remarked another House spokesman. "It seems to me that this is more important than silver or an equal rights bill. We didn't produce more than \$25,000,000 worth of silver annually."

Taft Stands Pat

HOUSE members walked out after OPA champions talked themselves blue trying to make Boo Taft of Ohio and other Senate conferees back down on the guaranteed profits provision and food de-control. Liberal GOP Senator Charles Tobey of New Hampshire, was expected to stand by the OPA, but he remarked:

"I intend to support the Senate bill. I have no other alternative since the Senate has voted for it." Showing up at the next day's meeting, Barkley promised better attendance after Spence called him to task for being AWOL.

"We can't get along without you, Alben," said his fellow Kentuckian. "I know you are aware of what is at stake here. We must agree on an OPA bill that the President will sign. I shudder to think of the indescribable train of evils that will result if we don't."

California Oil Rush

THE issue which helped defeat Ed Pauley for undersecretary of navy—Tidewater oil lands—is coming up in the Senate again, with Senator Pat McCarran of Nevada doing his best to jam the bill through before Congress adjourns.

The bill would give the 48 state title to submerged oil lands under the ocean-bed rather than letting the supreme court decide whether they belong to the states or the federal government.

Meanwhile Attorney General Bob Kenny of California has done some of the most adroit legal stalling in years. He and the Justice department have been in a race to see whether he could get the Tidewater oil bill passed by Congress before (Continued on Page 2)

Weather

Grand Rapids Area: Partly cloudy tonight and Wednesday. Scattered showers tonight and cooler Wednesday.

Lower Michigan: Partly cloudy tonight and Wednesday, with widely scattered thundershowers north and west portion tonight and southeast portion Wednesday. Cooler north and west portion Wednesday.

Flint Solon Only One to Admit Part in Bank Bill

LANSING—(UP)—Five more arraignments were added today to the 11 already completed in the state graft grand jury indictment of 24 persons on legislative bribery charges involving the controversial anti-chain banking bill of 1941.

All five waived reading of the warrant and demanded examination. Hearing was set for Aug. 1, the same date listed for examination of those arraigned Monday.

Three of the five arraigned today were brought here under guard from Southern Michigan prison, Jackson, where they are serving terms for conviction on other grand jury charges. They were former State Sen. Leo J. Wilkowski, former Rep. Frances J. Nowak and former Rep. William Buckley, all of Detroit.

The other two were former Sen. Charles C. Diggs, Detroit, and ex-Rep. Earl W. McEwen, Flint. Nowack, Buckley and Wilkowski were returned to Jackson prison.

BUENOS AIRES—Charles B. Behn, Chairman of the Board of Behn Aluminum and Brass company, Detroit, said today a legislative bribery conspiracy indictment returned Saturday at Lansing, Mich., was "all Greek to me."

while the other two were released under \$2,500 bond.

State Police said they had served a warrant on ex-Rep. William C. Stenson of Greenfield, bringing him to Lansing for arraignment today.

Special Prosecutor Richard Foster announced that the grand jury is trying to communicate with ex-State Senator Robert B. McLaughlin of Flint, who has been reported living in Milwaukee, Wis. Foster declared that if McLaughlin doesn't return, he presumably will be extradited.

THE OTHERS NOT yet officially notified are former Reps. William C. Stenson, Greenfield, and Adam W. Sumeracki, Detroit. However, they are expected to be reached later.

The state charges that the conspirators used and spent \$50,000 to defeat the anti-chain banking bill which finally passed but was vetoed by Van Wagoner, then governor.

Highlight of Monday's arraignments was the plea of guilty entered by Rep. Raymond J. Snow, Flint.

Snow appeared in court in the afternoon and waived examination. A few minutes later he was formally arraigned on the charge and pleaded guilty. Judge Coash tentatively set the sentencing date for Aug. 1 and released Snow on \$2,500 bond.

Ten others were arraigned earlier in the day and all demanded examination which was set for Aug. 1 at 10 a. m. They were released on \$2,500 bond.

FOUR OF THOSE arraigned Monday were officials of the Michigan National bank. They included Howard J. Stoddard, East Lansing president; Francis P. Slattery, Grand Rapids, vice president; Simon D. Den Uyl, Detroit, bank director and secretary-treasurer of the bank company; and Byron L. Ballard, bank legal counsel and former legal adviser to ex-Governor Murray D. Van Wagoner.

Bitter Brink of Failure

Lyle C. Wilson, manager of the Washington bureau of the United Press, has just finished a 30-day tour of Europe. Following is the first of a series of dispatches which he has written on conditions on the continent 15 months after V-E Day. It tells of a crisis that has arisen in connection with the occupation of Germany.

By LYLE C. WILSON

FRANKFURT—The Potsdam program for rehabilitation of Germany is on the bitter brink of failure.

France and Russia are strangling the Potsdam agreement. This dispatch will attempt to relate how that might cost the American taxpayers a lot of money or worse.

Our officials here are agreed that now is the moment of opportunity to bring Germany back into the society of self-supporting, democratic, peaceful nations.

That was the Potsdam objective. If it fails to work and no substitute is found for it the United States will have lost the peace.

France, by the veto, blocks the

OFFICIALDOM GOES A-CANNING

WIVES OF CABINET MEMBERS and Washington, D. C., officials do their bit for the national home food preservation program by canning peaches at the capital's community canning center. Shown left to right, are Mrs. Henry A. Wallace, Mrs. John R. Steelman, Mrs. Charles Brannan, Miss Drucie Snyder, Mrs. Robert Shields and Mrs. J. A. Krug.

Missouri Guns Blaze

Squirrel Shooting Pays as Sheriff Kills Bank Robbers

OSCEOLA, Mo.—A sharp-shooting sheriff and his deputy, who got their training bringing down squirrels in the Missouri hill country, were credited today with shooting to death two bank robbers 15 minutes after they looted the bank at nearby Humansville.

Sheriff Logan Perry and Deputy J. E. Kinkaid cornered the pair in a farm roadway and felled them after a blazing, rural gun battle.

"I don't know which of us got which of them," Perry said. "All I know is, we got 'em."

PERRY AND KINKAID overtook the gunmen approximately two miles south of here when they stopped to replace a Missouri automobile license plate with a Connecticut tag.

One of the robbers opened fire with two pistols and the other reached inside the car for a rifle and came up shooting.

Perry and Kinkaid opened fire simultaneously and the battle was over seconds later, with one of the robbers dead under the license plate holder and the second sprawled lifelessly on the ground beside the automobile.

KINKAID SAID the bank at Humansville, 20 miles south of here, had flashed the robbery alarm at 1:30 p. m. Fifteen minutes later, at 1:45 p. m., the shooting was all over.

The gunmen identified as Bill Frizzell and Phillip J. Cronin, believed to be from Essex, Mass., had \$4,700 in their possession, but it was not determined immediately how much of it came from the Humansville bank.

Although an audit was not completed, bank officials estimated the loot at \$1,000, all in currency.

Plans were made for a series of boxing tournaments in Greenville in September, Ernest Pries, Lions club publicity chairman said.

The Lions club voted at their meeting Monday night at Mac's Inn, Clifford lake to make arrangements for the tournaments in September at which time the best amateur fighters in Michigan will be brought to Greenville.

The club hopes that the Black athletic field will be available at this time for the erection of a ring.

A proposal for the building of a Lion's club house was approved, proceeds from the fights will go toward the erection of the club building. The building will be used for the Lion's club meetings and meetings of the Boy Scout troops and other civic organizations.

Many offers of labor and material were made by members. Guests at Monday night's meeting were Joe Cahow, Pete Faber, Pete Lyndrup, Dr. Edwin Rasmussen of Florida, Clarence Ingram, and Frank Snyder of St. Louis, Mo.

The next meeting of the Lion's club will be held Monday Aug. 5 at Wyckoff cottage, Clifford lake.

Condition of Polio Victim Is Unchanged

The condition of Ronald Olsen, 18 son of Mr. and Mrs. Fred Olsen Greenville, ED 1, who is critically ill in Butterworth hospital, Grand Rapids, with infantile paralysis, is unchanged, his mother said today.

Ronald, a junior at Greenville high school and regular catcher on the baseball team, was taken to the hospital Friday after complaining of being "all tired out" and that his neck hurt.

His mother said his throat was affected, adding that the sickness had been definitely diagnosed as poliomyelitis. Attendants have a long lung ready if need for it arises Mrs. Olsen said.

Rites Wednesday for Traffic Victim
Funeral services will be held at 2 p. m. Wednesday at Hoffman funeral home, 420 W. Grove-st., for Mrs. Mary Linda Miles instead of Tuesday as previously announced. Burial will be in Montcalm cemetery.

Mrs. Miles was fatally injured Sunday night when the car in which she was riding struck a car driven by Arlie W. Kent, Rockford ED 3, as he prepared to pull into driveway on M-57, five miles west of Greenville.

Fear 100 Dead Or Missing in Jewish Blast

By ELIAV SIMON
(United Press Staff Correspondent)
JERUSALEM—The British army clamped virtual martial law on Jerusalem today and rounded up hundreds of suspected extremists in an intense search for the gang of Jews who blew up the King David hotel, where more than 100 persons were killed or missing.

The British military command and administration—what was left of them after the shattering blast ripped through their headquarters at the hotel—were in constant touch with London in the formulation of a new and sterner policy for Palestine.

Jewish leaders, horrified by the hotel outrage, expressed fear that it may have cost the Jews their last chance of reconciliation with the British government and the release of their chiefs seized in an anti-terrorist campaign a month ago.

FINAL CASUALTY figures were expected later today. Semi-official estimates said the toll would be more than 100 dead and missing. Latest figures showed 46 dead, 47 missing, 53 seriously injured and about 150 less seriously injured.

The victims of the blast which ripped off a whole corner of the King David, destroying about 25 rooms on five floors which housed military and administrative offices, numbered some of the highest officials in the country.

J. V. SHAW, ACTING high commissioner in the absence of Sir Alan Cunningham in London, and Maj. Gen. Sir Evelyn Barker, British commander in Palestine, escaped. They were in touch with London by telephone in the drafting of what was expected to be all-out counter-measures.

An ironclad curfew was imposed on Palestine after the bombing. An official announcement said it was being lifted today. "The Jewish area was kept under the most rigid control. Details of the measures verge on martial law which the British expected to enforce were not disclosed immediately."

During the night, while rescue squads were digging mangled bodies out from under chunks of concrete and rubble, armed British soldiers were smashing through iron shutters into shops along the Jaffa road, Jerusalem's principal Jewish business center. Their systematic search for the saboteurs was reaching into every possible place of concealment in the city.

Calls for Single Control of Reich

BERLIN—Gen. Joseph McNarney, commander of United States forces in Europe, told the other three occupying powers today that something must be done to prevent "creeping economic paralysis" of Germany.

He told the Russian, British and French representatives on the allied control council that the United States government believes Germany "can no longer be administered in four airtight compartments without free economic interchange unless economic paralysis is to result."

Then he reiterated the offer made to the council of foreign ministers by Secretary of State James F. Eymes that the United States is prepared to co-operate with "any or all" to secure Germany's economic unity.

McNarney's offer earnestly asked the views of his colleagues but there was no immediate reaction.

Edmore Farmer Passes Suddenly

EDMORE—Hans P. Andersen, 76, area farmer, died unexpectedly Monday night in his home, after suffering a stroke.

A former resident of Greenville, he was born in Denmark Oct. 29, 1869. He came to the United States in 1879. Mr. Andersen was a resident of Edmore vicinity for more than 30 years. He married Christina Dunn May 10, 1915.

He was a member of the Masonic order, the order of Eastern Star and Danish brotherhood society.

Besides his widow, he is survived by a daughter, Anita; three sisters, Mrs. Nina Spohr, Chicago; Mrs. Charles Andersen and Mrs. Chris Jensen, both of Greenville.

The body is at Stebbins Funeral home where funeral services will be held at 2 p. m. Friday. Burial will be in Vineyard cemetery.

Check Final Plans for Atom Test

By FRANK H. BARTHOLOMEW
(United Press Staff Correspondent)
ABOARD THE USS APPALACHIAN IN BIKINI LAGOON—The doomed target fleet awaiting detonation of the first underwater atomic bomb will be dealt savage punishment far exceeding that of the aerial explosion of July 1 when five ships were sunk and others badly damaged, according to the calculations of the Bikini technical staff.

"Target ships near the point of detonation will be dealt a tremendous blow by the initial underwater shock," said Dr. Ralph A. Sawyer, technical director for Operations Crossroads and professor of physics at the University of Michigan.

After the initial shock of the explosion, the physicist said, the ships will be hit by a "gigantic column of water shooting two or three miles into the air." Finally, Dr. Sawyer predicted, they will be "violently tuffeted by a great wave 100 feet high moving radially from the center of explosion at a rate of 50 to 100 feet a second."

The underwater shock from the blast will hit the target vessels with terrific impact at a rate of 5,000 feet per second, Dr. Sawyer said.

Dr. G. Hartman, shock measurement expert for the technical staff, amplified Sawyer's statement with an estimate that the shock would be transmitted through the water at nearly 100 times the velocity of transmission through air.

A graphic description of expected results from the forthcoming sub-surface blast was given by Sawyer.

"A water dome a half mile in diameter is expected to rise into the air for two or three miles," he declared. "Through this dome a secondary plume of water will shoot up still farther skyward."

"The great water dome will be alive with radioactive fission products and air particles," the scientist said.

Oppose Split in Sales Tax

LANSING—The Michigan Farm Bureau board of directors, representing 45,000 farm families, today announced its "emphatic opposition" to a proposed constitutional amendment for a division of sales tax monies to be voted on in the fall.

"The result of this amendment would be to appropriate for schools approximately 76 per cent of the total sales tax revenues leaving only 24 per cent to be used for the many normal functions of government," he board pointed out.

"This appears to be exceedingly unsound and should not be approved by the voters."

"We feel that it is not good government to freeze into the constitution detailed provisions as to how state revenues are to be expended. This responsibility should be left with the legislature so that it can act in accordance with current conditions."

Earlier, the board wired Michigan Congressmen that it was opposed to the compromise OPA measure or any restoration of the federal agency.

County to Obtain \$10,000 Weight Tax

The distribution of second-quarter weight tax payment, to be returned to Montcalm county for road and street improvements, is \$10,082.83. The state highway department today prepared vouchers for the auditor general to return a total of \$1,517,091 which will bring the distribution of the second-quarter monies to \$19,123,225.

FFA MEETS FRIDAY

The Greenville chapter of the FFA will be shown a movie "Meat and Meat Products" at the high school building at 8 p. m. Friday. Marketing of the chapter's potatoes will be discussed. William Allen, agricultural teacher, urges all members to attend.

SAVE OAT FIELD

Firemen saved five acres of oats Monday noon when they were called to extinguish a grass fire on Cedar-st. The fire had spread within ten feet of the oat field before firemen could put out the blaze.

SIGLER SPENT \$10,000
DETROIT—(UP)—Kim Sigler today listed expenditures of \$10,994 in his victorious campaign for Republican nomination as governor. His total campaign contributions amounted to \$11,584, according to reports filed with county clerk Casper J. Lingeman.

Say Truman Will Approve 'Better' OPA

WASHINGTON—Administration leaders predicted the House today will approve the pummeled OPA revival bill and shoot it to the Senate by nightfall.

"There'll be an OPA tonight as far as we're concerned," House Speaker Sam Rayburn, D., Tex., told reporters as the House scheduled a vote on the compromise price measure.

House Democratic Leader John W. McCormack, Mass., forecast that the bill, despite its three-week mauling at the hands of Congress, will be signed by President Truman.

CHEERY OPTIMISM also was voiced on the other side of Capitol Hill where Senate Democratic Leader Alben W. Barkley, Ky., said the Senate would act on the bill as soon as it was received from the House. He predicted "no trouble" in the Senate.

The OPA bill, hacked out by Senate-House conferees after eight days of jockeying over prices on regional products, would return rent and most price controls as soon as the President signs the measures.

THE CONFEREES placed the finishing touches on the compromise bill late Monday. It would provide that price ceilings on meat, dairy products, grains and some other commodities could be restored by OPA on Aug. 20, unless a three-man decontrol board ruled otherwise.

Conferees refusing to sign the compromise were Sen. Eugene D. Millikin, R., Colo., and Reps. Jesse R. Wolcott, R., Mich., and Frederick C. Smith, R., O.

Wolcott criticized the compromise proviso which would give OPA the right to deny price increases unless they would report higher production. Wolcott believed this would give OPA "power to control the volume of production of virtually every producer in the United States."

Claims Group Tries to Involve U.S. in China

SHANGHAI—Madame Sun Yat-Sen, whose late husband founded the Chinese republic, said today that China was threatened by a civil war "into which reactionaries hope to draw America—thus involving the whole world."

"Such a civil war—though undeclared—already has begun," she added. Madame Sun said a coalition government must be established in China and that a civil war would not settle the issue.

"Why do reactionaries inflame a civil war which they cannot win? Because they hope civil conflict in China will incite a war between America and the Union of Soviet Socialist republics, and thus—at last—crush the Chinese Communists," she declared.

"The American people who are allies and long friends of the Chinese people must be told clearly of this road to disaster. They must be told that American reactionaries are teaming up with Chinese reactionaries—each encouraging the other," she continued.

In her first political statement in two years, Madame Sun said Americans should be told that the presence of United States armed forces in China "is not strengthening peace and order among the Chinese people."

NEW MINISTER HEBE—Rev. Richard Struthers, new pastor at the Church of God here, formerly was a minister in Plymouth. He succeeded Rev. W. E. Todd. Rev. Struthers is a native of Charlevoix and graduate of Anderson College Theological seminary.

Soil Conservation Program Is 'Must' on Good Farms

CHICAGO—"Overdrafts" on the fertility account of farm soils are causing a well-rounded soil management program to be the "must" on good farms, according to a statement made public here by the Middle West Soil Improvement Committee.

"These losses of essential plant food are caused by removal of fertilizer elements by harvested crops, grazing, the damaging effects of erosion and leaching," the statement points out.

"Federal authorities estimate that more than 50 million acres of farm land that at one time supported farmers and their families have been laid waste and are no longer fit for agricultural purposes."

"The committee's statement declares that a well-rounded soil management program is the surest method of 'balancing' the soil's fertility account."

"Such a program," it adds, "should include crop rotation, conservation measures to maintain the organic matter and replenish fertility through the return of manure and crop residues. It should include the growing of legumes, of essential importance in such a program is the application of nitrate fertilizers containing nitrogen, phosphorus and

FRED W. ROTH

ENGINEERING SPECIALIST—Fred W. Roth, recently discharged from three years of military service with the rank of first lieutenant, has joined the staff at Michigan State college as extension specialist in agricultural engineering. In this position Mr. Roth will organize and direct rural fire prevention and safety work throughout Michigan. Mr. Roth received his B. S. degree from Cornell in 1941. Previous to entering military service he was employed as extension specialist in agricultural engineering at MSU.

Feeding High Quality Hay Pays Greater Dividends

Feeding of high-quality hay will reduce requirements of concentrates and high-protein feeds for dairy cattle, according to a statement made public here by the Middle West Soil Improvement Committee.

"For many years a major portion of our attention was focused on the quality of roughage, with which these mixtures are to be fed is also important."

"High quality hay and other roughages will make almost any concentrate look good, but it is almost impossible to correct all the deficiencies in poor hay with the best concentrate available."

"Progressive feed manufacturers are putting great emphasis on roughage programs. They know that the formula feeds they sell will give better results on farms where good pastures are available in summer and high-quality hays are fed in winter."

"Dairy cows normally obtain at least 60 per cent of their nutritional needs from roughage grown on the farm. Roughage forms the basis of dairy rations. Cows will consume more hay if it is of good quality, and each pound consumed will furnish more digestible nutrients than will poor-quality hay."

CHICK HATCHING
Nears All-Time Low in State

LANSING—The number of chicks hatched in commercial hatcheries in Michigan during June was far below that for the same month last year and the five-year average, according to a statement made public here by the Michigan Department of Agriculture.

The 1946 crop is expected to average a yield of 25 bushels per acre, or 12,000,000 bushels, the second largest crop since 1928, Carr said.

Meat Surplus Is Temporary

WASHINGTON—Agriculture department officials predicted today that meat surplus will be on the market within the next few days.

"They said this would not include meat produced by non-inspected packers since the government does not tabulate their output. Non-inspected packers have been buying most of the livestock receipts."

"The estimate of probable meat supplies was based on the department's report that production of

Boost Winter Wheat Crop

LANSING—The Michigan winter wheat average goal for 1947 has been set at 1,650,000 by the United States Department of Agriculture, it was announced today by Roswell C. Carr, chairman of the USDA council in Michigan.

The goal, recommended by the USDA council, is a 10 per cent increase over the 1946 crop of 1,500,000 bushels. Carr said the goal is based on the long-term average yield for Michigan of 21.3 bushels per acre, the recommended 1947 average would produce a crop of 23.6 bushels per acre, or 12,000,000 bushels, the second largest crop since 1928, Carr said.

Meat Surplus Is Temporary

WASHINGTON—Agriculture department officials predicted today that meat surplus will be on the market within the next few days.

Hold Huyek Reunion Here Sunday

The William H. Huyek family reunion was held Sunday at the home of Mr. and Mrs. Frank Morley, Greenville.

This reunion stems from old Dutch traditions that the Huyek family is descended from a family originally came to America on May 4, 1629 when Jan Huyek, a storekeeper for the Dutch West India Co. The present day William H. Huyek family springs from William Henry Huyek who is a descendant from a brother of Jan Huyek. W. Henry Huyek came from Holland shortly before 1800 and lived in New York State for 14 years. He married Katherine Reed, Mr. Huyek then moved to Norwalk, O. To this union were born:

Dr. Robert Huyek, now specialist, Wyckoff, Ohio every Friday. Phone 477 for appointment.

Paul Merren Heads Local Stag Club

Paul Merren was elected president of the fifth annual meeting of the Greenville Stag Club organized in July, 1939, at the Greenville country club Sunday. Robert Kipp was elected secretary and treasurer.

The afternoon was spent talking over their experiences and old times at this first postwar meeting.

James A. Bower took motion pictures of the group and individually and the pictures will be shown at the next meeting.

New recordings of the group were made by Ed Reynolds.

Members attending included Robert Kipp, Kurt Becker, Keith Kipp, Wayne Jensen, James Bower, Robert Kipp, Paul Merren and Lester Patton.

Genevieve Lillie Wed To Donald Seabolt

Miss Genevieve Lillie, daughter of Mr. and Mrs. Owen Lillie, became the bride of Donald F. Seabolt, son of Mr. and Mrs. Seabolt, Greenville, Saturday evening. The wedding was held at a service conducted by the Rev. Dr. J. H. Wilson, pastor of the First Presbyterian church.

The bride's bouquet was carried by Audrey Pickett of Flint and Alvin Kerns of Greenville.

Couple Speaks Vows At Double Ring Rites

Lola Nina Willison, daughter of Mr. and Mrs. Willison, and the late Herb M. Willison, and Robert E. Nelson, son of Mr. and Mrs. Nelson, were united in marriage Wednesday evening with Rev. C. A. Stab performing the double ring ceremony at his home.

The bride wore a white wool suit with white accessories and a corsage of red roses and white carnations. The bride and groom were attended by Miss Annabelle Nelson, sister of the groom, and J. H. Willison, brother of the bride.

The bride is a graduate of Morley Consolidated high school, class of '37 and the groom is a graduate of Greenville high school, class of '38. The groom is employed at Federal Mogul.

Following a trip in upper Michigan, the couple plans to make their home temporarily with the bride's mother at Lakeview, RFD 1.

Per Gradus Members Hold Annual Picnic

Thirty-three members and guests of the Per Gradus club held an annual picnic Monday afternoon at the home of Mrs. M. M. Grosvener, Jr., Baldwin lake.

A picnic lunch was served in the yard overlooking the lake. A social afternoon was spent following a short business meeting.

Town Talk

Wenona Wilson has resigned her job at Heaton's Drug store.

Mrs. Earl Seabolt, Gladys Seabolt, and Mrs. Ed Viek spent Saturday in Grand Rapids.

Mildred Mayville, Chicago, 22 here visiting her parents, Mr. and Mrs. Albert Mayville for a week.

Mr. and Mrs. Freeman Fordyce have returned home after vacationing two weeks at Houghton lake.

Clarence Bartlett has returned to his home here after spending two weeks at Shawandown Scout camp, Duck lake.

Mr. and Mrs. Arthur Parker of Battle Creek, were Monday evening guests at the home of Mr. and Mrs. Ellen Porter.

A potluck dinner was served. Mr. and Mrs. Pinner received many gifts and a purse of money. All joined in wishing them many more happy years together.

Hold Huyek Reunion Here Sunday

The William H. Huyek family reunion was held Sunday at the home of Mr. and Mrs. Frank Morley, Greenville.

This reunion stems from old Dutch traditions that the Huyek family is descended from a family originally came to America on May 4, 1629 when Jan Huyek, a storekeeper for the Dutch West India Co. The present day William H. Huyek family springs from William Henry Huyek who is a descendant from a brother of Jan Huyek. W. Henry Huyek came from Holland shortly before 1800 and lived in New York State for 14 years. He married Katherine Reed, Mr. Huyek then moved to Norwalk, O. To this union were born:

Dr. Robert Huyek, now specialist, Wyckoff, Ohio every Friday. Phone 477 for appointment.

Meat Surplus Is Temporary

WASHINGTON—Agriculture department officials predicted today that meat surplus will be on the market within the next few days.

"They said this would not include meat produced by non-inspected packers since the government does not tabulate their output. Non-inspected packers have been buying most of the livestock receipts."

"The estimate of probable meat supplies was based on the department's report that production of

PILES Hurt Like Sin! But Now I Grin

Thousands change groans to grins. Use a doctor's formula to relieve discomfort of piles. Sent druggists by noted Thornton & Minor Clinic. Surprising QUICK palliative relief of pain, itch, irritation. Tends to soften, shrink swelling. Use doctor's way. Get tube Thornton & Minor's Rectal Ointment or Rectal Suppositories today. Follow label directions. At all good drugstores everywhere—in Greenville at Owen's.

Cards Best Road Team In Majors

By CARL LUNDQUIST
(United Press Sports Writer)
NEW YORK—The St. Louis Cardinals, who thrive on travel, and the Brooklyn Dodgers, who insist there is "no place like home" were in perfect strategic spots today to carry on their battle for the National league lead.

Tied for first place, the Dodgers under normal circumstances would have the advantage since they open

THURSDAY—Gibson vs Federal-Mogul.

DEADLINE SATURDAY
Managers planning to strengthen their teams before the playoffs are reminded that Saturday, July 27, is the deadline for signing new players. All players signed after that date will be ineligible for the post-season championship series.

a 12-game home stand at Ebbets Field today, while the Cardinals begin a junket against the Giants at the Polo Grounds which will take them to every National league park before they return home to St. Louis.

But that isn't the way it has worked out to date. The Cardinals, who treat every road trip like it was a vacation, have compiled the best traveling record of any team in the majors with 25 victories and only 14 defeats. That is even better than their record at home where they have won 28 and lost 20 and didn't even have a .500 mark until their last home stand when they warmed up to win 16 out of 22 games.

The Dodgers, on the other hand, are the best home team in the National league with 29 victories against nine defeats in Brooklyn although on the road they are below .500 with 24 wins and 25 losses.

In the American league, the second place Yankees were at the "now or never" stage in their forlorn hopes of catching the runaway Red Sox. Boston, now 11½ games in front of the Yankees, opens a western road trip at Chicago. The last time the Red Sox went west they left home with a 10-game margin, but struck a slump and the Yankees picked up three important games.

Then the Red Sox, who are one of the most phenomenal home clubs of modern times, returned to Boston and fattened their margin. They now have won 42 games and lost eight at Fenway Park, whereas on the road their record is 23 wins and 17 losses.

In the National league, the clubs with the exception of the Cards show their strength at home. Only one team, the Pirates, has played below .500 baseball at home. However, only two National league clubs, the Cards and the Cubs have managed to win more games than they have lost on the road.

The trend is different in the American. The four first division clubs, the Red Sox, Yankees, Tigers and Senators, have won more than they have lost at home and all but the Senators of the top quartet have played better than .500 baseball on the road.

Washington Merry-Go-Round

(Continued from Page 1)
The Justice department could get the question before the supreme court. It now looks as if Kenny has won. Here is how he did it: Last winter, when both California and the Justice department were to file briefs before the supreme court, Kenny petitioned the court for two months delay. This was granted. When the two months expired, Kenny filed one of the longest briefs in history. It was three volumes thick and 822 pages long. It is customary to make supreme court briefs what the name implies—brief and to the point.

Prolix Mr. Kenny

SO THE Justice department, indignant at Kenny's 822-page volume, filed one of the rarest of legal motions. It called upon the supreme court to strike the California answer on the ground that it was "prolix" and so muddled that it was "virtually impossible to segregate the well-pleaded facts for the purpose of determining the issues."

In citing reasons for asking the supreme court to strike the California answer, Solicitor General Howard McGrath went all the way back to a decision handed down by a British court in 1596—the case of Richard Mylward.

Mylward had filed a brief before the British court amounting to "six score sheets of paper," and the British judges were so outraged over this long document that they fined Mylward and further ordered:

Hal Shooting For No. 19 Against Nats

By United Press
DETROIT—Hal Newhouse* and Louis (Bobo) Newsom hook up on the mound at Briggs Stadium today as Detroit and Washington square off in the opener of a three-game series.

Hal will be after his 19th victory of the season and his fifth straight over the Senators this year. The records show that since 1944 the Tiger left-hander has lost only one game in 15 starts against Washington.

But today Hal may need a little more effectiveness than he showed in his last encounter with the Senators. Tiger bats came to the rescue after a shaky start in which the Senators got off to a five-run lead.

HARMON ON AIR

CHICAGO—(UP)—Criterion Radio Features announced today that Tom Harmon, All-American football star, had signed to do a fall forecast series for the 1946 football season. Robert R. Hansen, president of the company, said the 13-week program would be entitled "Here Comes Harmon." It is to be transcribed for distribution to about 150 radio stations, Hansen said.
